

# FRAUD BUSTER BUNDLE

The Easiest and  
Fastest Solution on  
the Market to Stop  
Fraud in its Tracks

## Stopping Fraud

Choose between a CR5400 for driver's licenses or an AT10K for licenses and passports. Scan the document and, within seconds, know if it's real, expired, the age of individual, and more.

## Verified Documents

Every scanned license or passport is verified against a library of thousands of international documents. Nothing gets by our scanners and software. You can rest assured your establishment is protected.

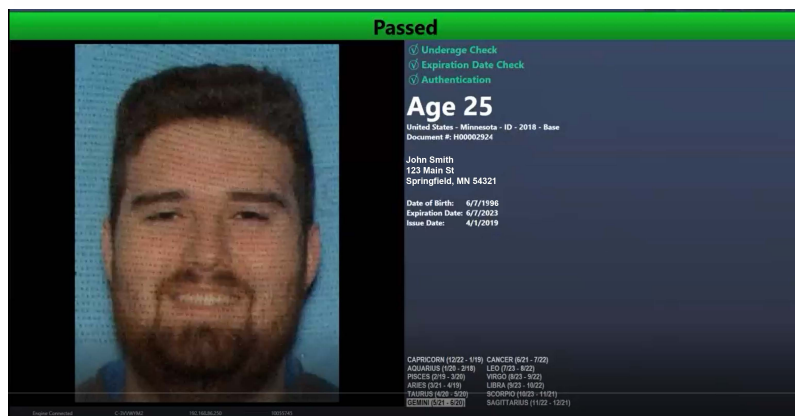

## Configurable Software

Choose what to look for. Toggle on and off expiration dates, age requirements, and more. Use the software as-is or customize it to work with your current backend software via its open SDK.
