

IMPROVE YOUR FII EXPERIENCE WITH A CONVENIENT, SECURE TABLET INTERFACE

- **Tap into an elevated financial card issuance experience** - Convenient and wireless, bank tellers and associates can walk customers through the entire card issuance process - including their own customized PIN selection - from anywhere in your branch - and all within minutes.
- **Enjoy ease of use** - Windows®-based, highly intuitive graphical interface walks users through loading, creating and printing, and the balancing of your cards at day's end.
- **Accelerate issuance and reduce errors** - Because your TRISM network already integrates with your branch's processors, re-keying data and subsequent manual entry errors are a thing of the past.

KEY FEATURES:

- Secure, wireless client access to HID TRISM™ Financial Instant Issuance Software
- Intuitive, Windows®-based graphics
- PIN selection in-device

WHAT IS TRISM?

HID TRISM Financial Instant Issuance software is an advanced, PCI-compliant software package that runs on your bank's network and integrates with your Account Processor (AP), EFT processor, and credit card processor enabling instant issuance and activation of payment cards.

The HID TRISM Tablet takes instant financial card issuance to the next level - empowering you to deliver an outstanding customer experience with speed, convenience and security. Communicating over your branch's dedicated WiFi network, you can securely create and instantly issue financial cards from anywhere in your branch - and all from an easy-to-use, hand-held tablet. By utilizing the wireless portability of the TRISM Tablet, the issuance process is more efficient, private and comfortable for your customers. Clients key in their PINs directly on the device - enhancing security and ensuring they can begin using their cards immediately - a huge plus for both your customer and your institution.

Beyond the enhanced customer experience, TRISM Tablet's highly intuitive graphics and workflow significantly reduce training time for employees. From day one, your

branch associates will be able perform all administrative functions such as start-of-day card loading, creating and printing cards - and even conducting end-of-day card vault balancing of physical card inventory. Users are walked through each and every step without having to learn cumbersome application commands - bolstering productivity while safeguarding your cards and processes.

For added flexibility, the TRISM Tablet solution is available either as a bundled offering that includes the TRISM client software pre-loaded onto an HID-supplied Tablet device - or as a software-only module that can be loaded onto your own Microsoft® Surface tablet device. The choice is yours. With the TRISM Tablet, financial card instant issuance has never been more convenient and customer-oriented. Find out what the HID TRISM Tablet can do for your institution today!

WORKFLOW FUNCTIONS:

- **Open day** - Track ordering/loading of your blank financial cards from your branch card vault
- **Create cards** - Access customer records to initiate card activation and printing on your desired instant issuance financial card printer (HID FARGO® HDPii Plus or HID FARGO DTCii recommended)
- **PIN Creation** - Customer key-in, verification and instant activation of unique PIN
- **Close day** - Conduct end-of-day card vault balancing of physical card inventory

PURCHASABLE OPTIONS:

- TRISM client software pre-loaded onto an HID-supplied Tablet device
- TRISM client software-only module loaded onto supported Microsoft® Surface tablet devices

AVAILABLE REPORTS

- End Of Day
